CURRENT SCIENCE SUBSCRIPTION FOR 2021

Dear Dr Laxmi Beniwal Dalal,

This is regarding CURRENT SCIENCE, a fortnightly journal started by Sir C.V. Raman in 1932. The President of the Association is Dr K. Kasturirangan and this letter is being written to you with his approval.

This journal published on the 10th and 25th of every month contains important articles in all fields of pure and applied science and technology including agriculture, medicine, physics, chemistry, mathematics, earth sciences, engineering, computer software, education, management, etc. The first several pages of the journal contain interesting and useful information for all students and teachers while the rest of the pages contain scientific articles in different areas which will also be useful particularly for teachers and faculty.

We are attaching herewith some descriptive material about CURRENT SCIENCE along with an Order Form. The University Grants Commission has also recommended this journal to all Universities and Colleges. A copy of the letter from UGC is also attached.

Many Colleges in the Country are already subscribing to the Journal. The special concessional annual subscription rate for Schools and Colleges is only Rs 2500/- for 24 issues in 2021. You can also subscribe to the journal up to 5 years at still further concessional rates. These rates will go up from 2022. We therefore suggest that you can subscribe to the journal this year (2021) itself, preferably, for 3/5 years so that the increase in subscription rate in 2022 does not affect your college. Please see the enclosed Price List for 2021.

We find that your College is not subscribing to CURRENT SCIENCE. This email is to request you to subscribe to CURRENT SCIENCE. We are attaching with this mail some descriptive material about CURRENT SCIENCE along with a copy of our Order Form.

We are also sending two sample copies of the journal. Also if you would like me to write to someone else in your College, please let me know. You are free to call me, preferably on my office landline telephone (080-2361 2310), on any working day between 9.00 A.M. and 5.00 P.M. As soon as you see this mail, I would be happy to receive at least a mail from you about the possibility of subscription to this important journal.

I look forward to hearing from you, With best wishes

Yours sincerely

G. Madhavan
Executive Secretary
